

**Lecture Series on Lachesis-Ambition by Dr. Muktinder Singh.**

**Notes prepared by Dr. Manohara Mysore.**

Ambitious:

These rubrics which are more of personality traits, when we should consider these rubrics? Every one of us to some have ambition. These are basic personality traits and we are all born with some personality traits. When we talk of these kind of rubrics, first question should be asked is, do we need to treat this behaviour? When this behaviour so consistent, when this take away the peace of the person, then we should think of considering this rubric.

When being ambitious is obstructing the personal growth, (to be better human being, contributing to be a good person to the society) then we should consider this rubric.

Once there was a person who was average kind of guy, and suddenly he lost his job. During this process, he was feeling extreme insecurity and worry which is a common phenomenon. After that he met with an accident, he also lost his property. Relatives were not supporting. He was in extreme crisis. After this crisis, he was partially handicapped. But, after all this crisis, he became very ambitious person. Very aggressive, deceitful and shrewd person. He made of lot property. But now at this stage, he was respected by all the people. When he came to me, he wanted to stop his business, but he cannot stop. His ambition was not leaving him.

Then we should take this rubric.

Sensitive- insulted?

He feels insulted even when others are not insulting him.

Personality traits rubrics has to be taken when to some degree, when it overpowers that person.

Ambition: Dictionary meaning:

Having or showing a strong desire and determination to succeed.

Desire to achieve something, or to succeed, accompanied with motivation, determination and an internal drive.

Ambition describes those that achieve success based on their inner desire to do so and their belief in themselves.

If after hearing an motivational talk, if one becomes motivated, we should not consider this. It should come from within.

Ambitious persons does not need any motivation and support. It comes from within.

Ambition in itself may not be a key to success. Successful, ambitious people need both energy and goals to succeed. Someone with plenty of energy but no goals may find themselves pursuing one opportunity after another without success, wondering what it is?

As an homeopath we should see, whether the person is only ambitious without any goals?

So having a strong desire, which make you not to rest. This is the aspect of ambitious persons.

In repertory rubrics:

AMBITION much, ambitious - 37 remedies.

In italics Lach, nux-v, verat.

It's an art to understand a rubric from repertory.

AMBITION much, ambitious fame, for (6)- alum, con, graph, Lach, NUX-V, staph

Fame- which has an ambition to be famous.

Ambition much, ambitious money, for (5)- ars, calc, lyc, nux-v, sulph.

Lachesis is ambitious for fame.

What a person does to achieve his ambition.

AMBITION much, ambitious means employed every possible(3) lyc, plat, verat.

Even cunning ways to achieve his ambition.

Now there is another way of understanding rubrics.

Repertorial analysis:

Lyco - more ambition for power- perfect politician.

Lach- Fame

Verat: ambition + employed every possible means.

Ambition + industrious+ CONSCIENTIOUS= ars, aur, lach, lyc, nux-v, staph, sulph, spig, verat, calc, cocc, cycl,

Aur: fights for country- silent worker,

Nux- vom:

Staph: conscientious

Hard working+ industrious + Deceitful= lach, nux, verat, ars, lyc, nat-mur, calc, sulph.

Nat-mur= hard worker but he can be deceitful, introvert.

Tarentula= industrious+ deceitful.

So, try to fine tune your mat.medica. knowledge in this method.

Opium= more of plan making.

Understanding remedies in their right context is very important.

Opium: more or less into Hardworking and deceitful but not very ambitious person.

Plan making money + ambitious = Nux.-v, sulph, and anacardium.

China: theorizing + not ambitious.

Not always, every ambitious person is a good planner.

In this way we can understand the rubrics.

Chaotic ambitious:

Ambition much, ambitious+ plans making many= nux-v, sulph, anac.

Ambitious + never succeseeds\_ plans, making many= nux.vom. (in syphilitic aspect)

Succeeds, never: am-c, asar, aur, canth, merc, mur-ac, nat-c, nat-sulph, nux-v, polys, salix-nig

Nux-vom: can be in higher posts in govt.jobs also. But dissatisfied, irritable.

Ambition much+ chaotic-confused behaviour=

Ambition much + Business incapacity for= nux, ars, caust, lyc, silica.

Causticum: who has sympathy for others, helps others. Ambitious need not be always for business.

Ars: he is an avarice. He does not invest much money.

Silicea: is an ambitious scientist, not a businessmen.

Ambition + business aptitude for= calc, kali-c, lyc, sulph.

We should make note of this, as it helps to increase our mat. knowledge.

Ambition+ artistic= phos, plat, silica, sulph.

Car, chin, ambra has artistic aptitude but not very ambitious. In this way we can have 'n' number of combinations.

Ambition much + side: right= nux, ars, aur,(3 marks) calc, colocynth, conium, lyc, puls, sars, acon, alum, bov, carb-an, caust, cocc, dros, kali-carb, pall, ran-b, sili, staph, sulph, anac, camph

These are very interesting studies which can be made.

Ambition + left: lach., etc.,

Contented+ ambition much= Alumina, aur, cocc, cyc, nat-m, phos, spig, staph

Ambitious persons: can suffer more from auto immune disorders.

Chaotic + ambitious:

I could connect you through this aspect of understanding the rubric.

We should be very much clear, how and when not to take this rubric. And also to combine a rubric.

Being possessed by jealousy, ambition is very important aspects to be considered when we understand a person.

We should not be a driver in case taking. We should be a follower, good listener.

During this lockdown, Ambitious persons are the first to take initiative in selling sanitizers, masks first. They made contact with officials so that they could be able to sell more.

How to differentiate Greed and ambition:

Greed, avarice these are the rubrics.

Ambitious + greedy can be combination.

Greed is desiring more than one needs.

In greed there are many subrubrics.

Lycopodium: Seasoned politician.

Same remedy can be shown into extremes in different aspects of life.

Ambitious children can be more interested in extra curricular activities. In children it has to be more of objective.

Question:

When we ask patients, every one says he wants to settle, succeed in life? So when to consider taking this rubric sir?

Ans: Every one of us have some amount of ambition within us. But, when this ambition is letting the person to ignore his health and other aspects of life, then we should take this rubric. Ambition is not a rubric for everyone.

Ambition + Singing= lach, verat, cocc, acon, cupr, kali-c, lyc, nat-m, phos, plat, sars, sulph.

One of my patient forced his parents to sell their piece of land to pursue his singing ambition.  
(wants to make an music album)

Which software is good?

Every software is good, it depends on how you extract from it. (make use of it). I use ISIS.

Lachesis: are proud and feels they are special and are full of ambition for fame.

Lachesis: Child: They love to take up center stage and always give the leading monologue..

In case taking, first few minutes, patients tells about his physical complaints. Taking a lead from his physicals, we should ask mental. It depends on the way we practice.
